

DISTRICT 101 LICE PROCEDURES

1. Provide educational information regarding head lice via district web site.
2. Send the student home for treatment as soon as lice are identified at school.
3. Check siblings of students identified with head lice.
4. Discontinue classroom and grade level mass checks. Group or mass checks should only be done if a group function has been reported (Indian Princesses, sleepover parties, etc.).
5. Classroom [letters](#) will be sent to elementary classroom families, stating that a case of head lice has been identified in their child's grade. [Treatment instructions](#) and general information will be included.
6. The identified student will be checked upon to return to school after treatment and for up to 7 days until all nits are removed. The nurse is given the option to send the student home if a copious amount of nits (over 20) cannot be removed within the first ½ hour of the school day.
